

# Grow Eat Learn 2025 School Garden Infrastructure Grants

To support school-based growing projects over the 2025 growing season, with the help of the Province of Nova Scotia, Nourish Nova Scotia is offering School Garden Infrastructure Grants. The grant aims to help support both new and existing gardens. See below for eligibility and application steps. **Open from May 8 to June 20, 2025.**

**This grant will fund & support the installment of 1 or 2 of the following:**

Garden Beds (\$500), Cold-frames (\$500), Compost Systems (\$500), Water Catchment & Storage (\$500), Fruit Tree Guild (\$500), Hydroponics (\$500), General Garden Infrastructure (\$500), Pollinator Tea Garden Kit (\$200 value in plants we bring to you), or Indoor Growing & Seed Starting Kit (\$500 value in supplies we bring to you).

## **Who can apply:**

Any representative of a school garden or a community garden on school grounds.

## **How to apply:**

### **Step 1: Complete the School Garden Infrastructure Grant Application**

This is where we gather all the information needed to fund your school or organization. The form will ask you questions about your project and your plan to implement the garden improvements.

Application Form

### **Step 2 (optional): Complete the 10-minute Questionnaire.**

After submitting the School Garden Infrastructure Grant Application, you will be given a link to the questionnaire about the school growing project that you are involved with.

Once the application is in, we will work quickly to issue the funding. Project does not need to be completed before the end of the school year.
